Subject: Establishment of our Enforcement Division

Dear Region 9:

I am pleased to announce that Region 9's new Enforcement Division was officially established today. We have now consolidated our air, water, waste, toxics release inventory, and pesticides enforcement programs into a strong, unified multi-media division. This was an ambitious reorganization, and I appreciate all your efforts during the past two years of planning.

Creating the new enforcement division drew upon the experiences, insights and energies of nearly everyone in this region. I particularly want to thank those who were part of the original visioning team, beginning with Nancy Marvel and the SMT leadership. I also appreciated honest and thoughtful input from our Region 9 Union partners, staff and management, including those who are moving to the new division and those who are not. Thanks to Jay Green who helped create strong links to CID.

Our superb Human Resources Team, including Bridget Coyle, Terisa Williams and Vicki Lane, provided invaluable advice and worked tirelessly to create this new organization. Finally, I greatly appreciate the efforts of Kathleen Johnson, Director of the new division, Amy Miller, Deputy Director, and their new management team for their leadership in translating the collective vision into reality.

Today marks the start of a new chapter in Region 9's history. Thank you all for your investment in this important work.

Jared Blumenfeld
